Leading Prayer after Wet Cupping - 28 /Aug/ 2019

Q.! Can someone who has undergone wet cupping (*hajāmah*) but has not yet rinsed the area of the incisions with water for fear of causing infection officiate as the leader, or imam, of a congregational prayer?

A.! Although he is permitted to officiate as the leader of a congregational prayer, it is best that he observes caution, i.e. not to lead the prayer.
